H. A. B. MARKSBURY.

R. H. Batson, the bustling merchant, comes out in a big ad. this week and tells the people of his big stock of up-to-date goods. Look at page 4 and see if you can find it.

Big Success.  
The supper given by the ladies of the Fork church Friday evening was a success in every way. Those in charge remembered The Record in a way that will be long remembered.

Judgment for \$50.  
In the case of Mrs. Burnside against Jim Hamilton for damages, caused by the latter's horse colliding with the former's buggy, the jury awarded damages in the sum of fifty dollars. The suit was for \$5,000.

Forty Dollars.  
Hutchinson, who sued W. H. Furr for \$5,000 damages by reason of Hutchinson's children eating rat poison, the latter had put out, was given a verdict for forty dollars. The case took up several days time in the court.

To Visit the Schools.  
Miss Eliza Lusk, county superintendent, will during the month of September, visit the schools in the county. As this will take up so much time she will only be at her office on Saturdays and court day during the month. If

The anonymous letter writer has again been getting in his work. The only way to treat these epistles is with silent contempt. It is impossible to find the author. They are sent to this office so frequently that we seldom attempt to read them.

Capital Stock Reduced.  
By a unanimous vote, the stockholders of the Citizens' Bank decided Tuesday

day to reduce the capital stock from \$100,000 to \$50,000. The immense taxation placed upon the banks has caused nearly all of them to reduce stock and shave expenses.

Council Meeting.  
The City Council met in regular session Monday night but did nothing of importance. Ellen Evans, a colored woman, asked to compromise a fine of \$125, for selling whisky and the Council accepted \$100.

High School Diplomas.  
The Board of Trustees of Lancaster Graded School held a meeting Monday and decided that pupils who complete the course of study in the eleventh grade in said school shall graduate and receive a High School Diploma, signed by the principal and trustees.

Mistaken Idea.  
Some lumber-head started the report that parties going to Cincinnati had to change cars between here and the Queen City. Such is not the case. This train takes you right into the Union depot, and leaves that station returning. It only takes four and one-half hours to make the run.

Overcoats.  
I have the best line of samples for Ready Made and Tailor Made overcoats at living prices. Young men under 35 breast measure, can save money by calling to see me. Boy's clothing and Gent's Furnishing Goods at Philadelphia prices. Fit or no pay. M. D. HUGHES, Agent.

Be On The Lookout.  
There are several dead beats heading this way who claim to be victims of the Maine disaster. They put up a wonderful story of hair-breadth escapes, and wind up by soliciting aid to reach friends in the north. They have been exposed in several towns, and it will be well to be on the lookout for them.

Answers as Well.  
The inventive facilities of the Winchester girl seem practically unlimited. By tying sandpaper about her ankles a Winchester girl produces the same effect as by buying an expensive silk skirt. The pieces of sandpaper rub together and sound just like a silk skirt. Pretty rough on the dressmakers though.—Richmond Pantagraph.

This office can print anything you want. When people send their work to the city and say they can't get what they want here, it is simply because they have no town or county pride. Such people are perfectly willing to make their money here, but think the town is not good enough to spend it in. Pretty pass.

Lieut. Wherritt Ill.  
Lieut. Clauie Wherritt, who was here last week, was taken ill when he returned to Chickamauga and it soon became necessary to bring him home. The case soon developed into typhoid fever and he has since been very ill. At this writing he is resting easy and the physician, Dr. Bash, thinks he will pull through all right.

Interesting Suit.  
The city of Danville has brought suit against the county of Boyle, praying that the county be made to keep up those streets which were a part of the turnpikes recently bought by the county and formerly maintained by the turnpike companies. The Advocate says the county will fight the case every inch of the way.

Sermon to Children.  
Rev. Henry Faulconer asks The Record to announce that he will preach to children at the union meeting in the Presbyterian church Sunday evening, beginning promptly at 7 o'clock. He is particularly anxious for children of all denominations to come. He will not keep them more than three-quarters of an hour at the longest.

Richmond Pike Too.  
In our report of the grand jury's work last issue we failed to state that the Richmond pike company was also indicted with the others for failing to make report to the county court. All three of the pikes still charging toll were indicted; two for failure to make report and one for failure to keep road in repair.

Prices and Quality.  
I have 1,000 samples for Fall and Winter Suits, which are offered at the very lowest prices. I make small profits in order to sell. Tailor made suits as low as \$11.95, up to \$30. Ready-to-wear A.T.L. wool suits from \$7.50 to \$18. Come and test the goods and compare prices and qualities, and you will buy. Thanking my old customers, I invite everybody to come to come to see me before buying.

M. D. HUGHES, Agent.

The Right Move.  
The County Court, together with the City Council, has advertised for bids for tearing away the old stable on the workhouse lot and the erection of a shed under which to work the prisoners. The officers are certainly moving in the right direction by having this property put in decent shape. When the new pavement is completed it will be as nice a piece of property as can be found in any town. All hats off to the Court and Council.

Store Rooms Wanted.  
There is a good demand for store rooms in Lancaster and it's difficult to

see why some first-class ones are not erected. We know two parties who want good rooms and are willing to pay reasonable rent for them. We also know another party who wants a room, even if off the Square. If some capitalist who is not afraid to spend a few dollars, will put up some first-class rooms he can make big interest on his investment.

To the Pen.  
Sheriff Saunders took the following prisoners to the Frankfort penitentiary Tuesday morning: John Kerse, colored, for shooting and wounding, five years; Frank Turner, white, hog stealing, one year; Speed Young, housebreaking, five years; William Potts, housebreaking, six years; and Monkey John, horse stealing, two years. This is a pretty good batch and if future juries will keep up the good work the county will soon be the best law abiding in the state.

Lamps to be Placed.  
As soon as the pavement along the street leading to the depot is finished, the Council will have the lamps placed in position. They will be kept burning every dark night so those coming on the night trains can see the way to town. This is a mighty good move and the Council is to be congratulated for having it done. A hustling Council is necessary to keep a town up to date, and the Lancaster board is fast shaking the moss off in lots of places.

Fall Announcement.  
The Old reliable firm of Wanamaker & Brown have put out their ALL WOOL samples and defy competition in prices and quality. I also have samples from Desbocker-Bloch Tailoring Company, of Buffalo, New York, and Howard Tailoring Company, of Chicago. They have new and exclusive styles for fine Tailoring, the latest and most approved designs and weaves in Woolens, and guarantee perfect satisfaction in fit, trimming and Workmanship. Come and get prices and examine goods.

M. D. HUGHES, Agt.

Something New and Very Good.  
We have recently placed in our mill one of the most complete Corn Cleaners that is made. It cleanses corn perfectly and makes the meal as pure as the cleanest flour. It first takes out, by separation over sieves, all pieces of cobs, shuck, rat filth etc., then it secures all impure meal from the corn. We also keep in stock Graham flour put up in 12 1/2 lb. sacks made of all the wheat and ground on French Burr Mill Stones. We are now prepared to clean seed wheat at 5cts per bushel.

BURNAM & RUCKER.

Give Peddlers the Shake.  
Give peddlers the coil shake. Their interests are of no concern to you, says an exchange. They take money out of a town and leave none. They have no business reputation to sustain, and are more apt to skin you than not. There is absolutely not one single advantage in buying from peddlers, therefore give these itinerant salesmen the shake. There is not an article they sell that cannot be bought as cheap of the dealers in your own town, who pay taxes and help to build up, while the peddlers do nothing for us. Trade with the merchants who advertise, let the peddlers go.

A Curiosity.  
S. D. Merritt, who has charge of the electric light plant, showed a Record man a bible, which, by reason of age and peculiar wording, is a curiosity. The back is of leather, sewed on with raw hide, and the type is about three times the size you now read in this paper. Mr. Merritt says the book has been handed down through relatives and it is fully five hundred years old. In many places it differs greatly with the often re-hashed version of the scriptures in use today. Mr. Merritt will gladly show the book to any student of the bible. (It's safe to say he will not be kept busy by Lancaster "students".)

Good Quality, Low Prices.  
Our tailor-made suits at \$10.75, equal others at \$15.00, and those at \$18 and \$15 equal many others at \$18 and \$20. Our ready-made suits at \$8, \$10 and \$12 are positively all wool and very low in price. Examine the Samples for yourselves. About 1,000 to select from. Boys' and young men's clothing a specialty. The best quality of Furnishing Goods from Wanamaker and Brown, at Philadelphia prices. Come and buy a complete outfit at reduced prices. Pants made to measure at \$3 to \$8. Perfect fit and satisfaction guaranteed. Overcoats are priced at low-water mark.

M. D. HUGHES, Agt.

The Bankruptcy Law.  
The new bankrupt law went into effect August 1st but it cannot be enforced until the referees are in office ready for business. When the would be bankrupt takes his application he is required to deposit \$25 in cash in order to pay the referee and clerk. Then the referee takes charge of his business and settles it for him, after taking out the amount allowed by law of the State in which the bankrupt lives. He turns everything into cash, pays the money out to creditors, and when everything is gone he gives the bankrupt a clear receipt for all his debts.

House for Rent.  
The Cottage just inside the toll-gate on Stanford pike, occupied by W. McC. Johnston, will be for rent by or before the last of September. It has three nice rooms, large kitchen, two porches, splendid eastern water right in the porch, large yard, splendid garden, good stable and buggy house, large lot, and is every way a desirable residence. It is freshly painted and in thorough repair throughout. It has a good servants house of three rooms that readily rent for thirty-six dollars a year. Any one desiring to move to town where they can educate their children for nothing, would do well to examine this place.

For information call on, or address W. McC. Johnston or W. J. Romans. sept-11.

Assessor Appointed.  
Mr. E. W. Harris has been appointed city assessor for the ensuing year. A member of the Council told The Record the list of last year only contained three dogs, two cows, no bicycles, no diamonds, a couple of pianos, about twenty-five dollars worth of jewelry, and absolutely no cash. This makes it easy to see why the list of taxable property fell off so materially. It is safe to estimate the number of dogs at ten thousand, pianos a few thousand less, enough cows to blockade all the streets and pinchback jewelry enough to stock every street fakir in the state. The assessor has received instructions to make vigorous inquiries into this fall, and it is safe to say it will run back to where it properly belongs. There is just as much fraud in refusing to give in bicycles, pianos, dogs and jewelry as there would be in evading the tax on a horse and lot.

Big Day at Lexington.  
One of the biggest days in the history of Lexington will be today, Friday. Several prominent Kentuckians, among the number being Jim Hamilton of this city, have arranged for a number of events which will draw like a magnet to where it properly belongs. There is just as much fraud in refusing to give in bicycles, pianos, dogs and jewelry as there would be in evading the tax on a horse and lot.

FRIDAY, September, 9 - 1898.

Gov. BRADLEY has endeavored himself to all those having relatives in the volunteers by his action in sending a special train after the sick soldiers at Chickamauga. The governor went to several banks in Frankfort to borrow the money to pay for the train, but not having the usual gold elephant these institutions require as security, they could not "accommodate" him. He then went to a private individual and got the money. The governor made a personal inspection of each tent in the Kentucky camp. No officers accompanied him and the men were told to say just what they thought of the situation at Chickamauga. He found that while much sickness prevails yet the regiment has fared no worse than the others there. The governor went with the train and personally supervised the moving of the sick boys. On the return he had the par's and friends notified and at the depots to meet the men. Too much praise cannot be bestowed upon Gov. Bradley for this work. He went into his own pocket to defray some of the expense, to say nothing of the time and worry it caused him. Dr. James, one of the physicians who went with the governor, says of the camp: "The trouble is due to lack of drainage and also to the fact that the entire camp has used a general dump near the camp, where all the garbage and refuse of the camp has been deposited. Generally speaking, however, I did not see anything at Camp Thomas which I would feel justified in criticizing so far as management is concerned." Gov. Bradley may send out still another hospital train to gather up the sick Kentucky soldiers at Montauk Point, the Long Island College hospital and Fort McPherson.

The chances are that appointments to West Point will go begging hereafter. From the manner in which educated soldiers were ignored in the recent war, it shows that to get "in the punch" one must be an expert in political maneuvering. No other qualification was necessary in picking commanding officers of the present volunteer organizations. There are no inducements now for a boy to enter West point and spend the best portion of his life in studying to be a soldier. It's a sad state of case, but true nevertheless.

We do not wish to say "I told you so," but the following special fits our predictions squarely: "The opinion generally prevails at Washington that the mismanagement, sickness and deaths in the volunteer camps have been due mainly to serious defects in the National Guard system, by which inexperienced men were put under the command of officers who often owed their appointments to political influence and were, in consequence, unfit for their responsible duties."

It is expected that an effort will be made in Congress to strengthen the weak points developed in the National Guard system by the experience of the war. It is hoped that steps will be taken in this direction. The condition of the regular trained soldiers, who did the fighting at Santiago, is not near so bad as that of the men who have never been off their native soil. This looks like proof enough to show conclusively that politicians are not fit to place over men.

CAPE SWEENEY, who resigned from the Lebanon company, is saying hard things about Col. E. L. Gaither, among them being the charge that it was Gaither's cowardice which prevented the regiment from going to the front. If Sweeney is as badly mistaken in all his charges as he is in calling Gaither a coward he is simply talking to hear his head roar.

The Navy Department confirms the report that the Iowa and Oregon are to sail soon for the Pacific station, where they will be available for dispatch to the Philippines in case of further trouble. If any more trouble comes, there is where it will be. It's well enough to keep a weather eye on these islands.

JESSE HARRIST and James Baker write to Gov. Bradley that they "take pleasure to inform him that they are in the Standard jail" awaiting action on a charge of murder in Clay county. They want the governor to furnish troops to take them back to Clay, as they fear mob violence.

## Prof. Gowen's Reply to the Trustees' "Card."

The Board made the charge that I sold that which did not belong to me and that I knew at the time that it did not belong to me. This is a pretty strong statement for them to make. They don't give me the benefit of a shade of a shadow of a doubt in the case. They condemn and hang me without witness, judge or jury and don't even give me the "benefit of clergy" in my burial! I have just sold that which was not my own and I knew it not to be, that's all. Well, the last part of that charge they do not know to be true, nor can they know it. That I know I had no right to it I do most positively deny. On the contrary, I had always thought that I had a perfect right to it until Sept. the 13th, and it never entered my mind that even the Board thought differently until a few days ago. While I ask no consideration at the hands of the Board nor do I expect any, I can but wish that my brother had been spared the humiliation of seeing me published to the world as dishonest and that too over the signature of two men who sustain to him the peculiar and delicate relation of Elders to a Pastor in the church for which he has ministered so long. I believe that he would have died in his tracks before he would have published to the world the dishonesty of one of THEIR brothers, even though he might have known him to be guilty, thus seeking to bring sorrow and shame and humiliation upon the innocent.

In reply to the Board's note I wish to give my reasons for thinking I had a right to the property for a year, and I trust I shall do so in better spirit than they showed. I shall not deal in epithets, use ugly names or make ugly faces at them lest the public should see in that the weakness of my cause and suspect that such was my only reason:

(1) In the first place nearly all the communication I had with the Board before I came to Kentucky was through my brother (I had only one letter from the secretary), and my brother understood that I was to have the house, not during school only, but for the whole year, and he, of course, gave me to understand it as he understood it; but the Board would say that he misunderstood them, so I'll give a second reason:

(2) Ever since I have been here I have held the property during the summer, and nothing was ever said or thought about my not having a right to do so—on the contrary it has always been expected; but the Board might say that it was through their goodness and kindness of heart that I have been permitted to use the house during vacation; so I'll give a third reason:

(3) The only letter the secretary ever wrote me—the one telling me of my election—made the same impression on me that all my brother's letters had done. That it was worded like the so-called "contract" in the trustees' note, I most positively deny. The so-called "contract" is no contract at all, but only an extract from the secretary's minutes—minutes too, the very existence of which, I was ignorant of until the day before I gave up the property. There was no formal or written contract; they claim their minutes to be the contract; I claim their letter to me and my acceptance to be the contract. The minutes were written when I was three hundred miles from here; was I expected to come and read the minutes, or was it more natural for me to rely on the secretary's letter to know the conditions? It takes two to make a contract. The Board ought to have sought the advice of some lawyer in town on the meaning of a "contract." It seems to me. But I may be charged with inability to understand what the secretary meant, so I'll give a fourth reason:

(4) At the end of the first year I asked for a little increase in salary, but the chairman said the Board had decided they could not grant my request; they considered the money they were paying me, and the house which they estimated at from \$150 to \$300 a year, very good pay. The chairman himself said I could not get a house at all suitable for less than \$150 a year—not nine months; \$150 for nine months would be pretty high it seems to me. Even if the contract had been understood as meaning 9 months, for the first year, I don't see how it can be claimed for the second and third, in the face of their report to me. But the Board may not remember saying these things, so I'll give a fifth reason:

(5) In the Board's formal notification of my election—the secretary's letter, mentioned above—they laid great stress on the fact that I would have a most excellent garden; now, if the house was mine for only the scholastic year (9 months), of course the garden was mine for only the same time, that is, from Sept. till May—during the winter months, but from May till Sept. the only time a garden is worth anything—I have no right to it. Talk about "common sense" and "fitness of things,"—it seems to me that both these things are lacking when you hold out a special inducement "a most excellent garden," when I'm not to use it in the summer time. I had never been accustomed to "scholastic gardens," so I seem to have been misled.

(6) Reason No. 6—Prof. Patterson said to Mr. L. F. Hubble and me, that he understood he was to have the house for twelve months, not nine, and that he recognized equal right on my part, the only question with him being when the twelve months would begin. Mr. Ward, on his own account came to see me about giving up the house, (although a member of the Board, he did not know the Board had ordered me to vacate) and when I told him that I claimed the house for 12 months, he said he thought it would begin with my election. My election, I think, took place in June or July, but my occupancy began in September

and could not have begun earlier, for the house was not ready. I answered by asking him this question: "Suppose you rent your house for next year, possession to be given in June, but the trade is made today, will you count twelve months from the day the contract is made, or from the day of possession?"

Some may infer from their card that the Board wanted me to stay, but they do not claim any such thing—if they do we will have something interesting.

As to the slurs in the note of the Board last week, I'll say nothing except that they confirm what I've said about the animus that prevailed all along. Whether my communication or the Board's most deserves to be called "silly"; whether there was any reason, other than the one assigned, for keeping silent, and whether my "broadsides" had any effect, I leave the people to decide, and I'll be abundantly satisfied with their decision.

## A CRITICAL TIME

During the Battle of Santiago.

SICK OR WELL, A RUSH NIGHT AND DAY.

The Packers at the Battle of Santiago de Cuba were all Heroes. Their Heroic Effects in Getting Ammunition and Rations to the Front Saved the day.

P. E. Butler, of pack-train No. 3 writing from Santiago, De Cuba, on July 28th, says: "We all had diarrhoea in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of ruse and rush night and day to keep the troops supplied with ammunition and rations, but thanks to Chamberlain's Colic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army, for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack-train before we left Tampa, and I knew in four cases it absolutely saved life." The above letter was written to the manufacturers of this medicine, the Chamberlain Medicine Co., Des Moines, Iowa. For sale by R. E. McRoberts.

## WHY WHEAT IS CHEAP.

The Milling Demand Supplied From the Farmers' Elevator Stores.

The Courier-Journal has heretofore called attention to the fact that one reason there was so little milling demand for wheat was that farmers were storing their grain in mill elevators and by the contracts the mills could use this grain, replacing it on demand. Speaking of this the Farmers' Home Journal says in its current issue:

"We learn from daily reports from the market centers that farmers are not selling but storing in mill elevators. We find also that there is almost no milling demand for the crop, because in the storage contracts the farmers agreed to permit the miller to grind his wheat provided he will replace it when called on. Now, as we only export about one-seventh to one eighth of our wheat, the millers of the United States must be our customers for six-sevenths or seven-eighths of our crop. But, as stated above, the millers are not buying the new crop to any considerable extent, and the reason is the farmers are giving them absolute-

ly free all the wheat they can grind. They need not buy a bushel. With the consent of the farmers the millers of the United States are grinding up the wheat without paying a dollar for it and selling the flour at high prices or storing it away to sell for still higher prices after they have settled with the farmers at from 50c to 60c per bushel. By this action of the farmers the millers have the fixing of the price in their own hands.

"The millers of the United States, according to past records, will require this fall and winter about 450 million bushels to meet current demands. Suppose the millers were required now to go into the open market and buy to fill their current wants and thus make some competition with exporters, does any one suppose that if this were the case wheat would be selling at 65c to 70c? The only buyers we have now are exporters, and they only want 50 or 60 million bushels, and if farmers would not supply it without cost they would have to buy it. We do not blame the millers for making such an arrangement, but farmers who agree to it should not complain about 50c wheat."

## FOR ALL WOMEN

Nine-tenths of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

For advice in cases requiring special directions, address, giving symptoms, the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOS. J. COOPER, Tupelo, Miss., says: "My sister suffered from very irregular and painful menstruation and doctors could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the Change of Life."
